

Engineering Department Project Update

March 2014

Focus on Roads

To keep up with the demands of growth (184% increase in population since 2000), maintain a high quality of life, provide better access to schools and to promote economic development, since 2007 Wylie has invested and plans to continue to invest in more than 13 miles of new and reconstructed roadways (in addition to Parker Road and Highway 78). At the current cost of approximately

\$1.35 million dollars per lane mile--that's more than \$50 million in projects. Funding sources include the 03 & 07 County Bonds, 99 & 05 City Bonds, TxDOT, County toll sharing agreements, and the Woodbridge Crossing (Target) developers agreement.

With Brown Street construction completed, Highway 78 (Spring Creek Parkway to SH 205), Stone Road (Akin Lane to W.A. Allen Boulevard), and Woodbridge Parkway, connecting Highway 78 to FM 544, are under construction. Country Club Road and Ballard Ave. are also scheduled to begin in late 2014. Projects and time lines are constantly reviewed and updated to make sure the current and future transportation needs of the City are met within budget.
